

Term	Definition
Applied Steps	A recorded history in Power Query of every edit made to a dataset, functioning like an advanced "Undo" that saves the sequence for future data refreshes.
BCG Matrix	A strategic framework used to categorize products into four types: Stars, Question Marks, Cash Cows, and Dogs (Abacaxi), based on market growth and share.
Business Intelligence (BI)	The process of consolidating spread-out company data into visual dashboards to assist in data-driven decision-making.
Cardinality	The nature of a relationship between two tables, often "1 to *" (One-to-Many), where a unique ID in a dimension table corresponds to multiple entries in a fact table.
DAX	Data Analysis Expressions; the formula language used in Power BI for creating calculated columns and measures.
Drill-Down / Drill-Up	A feature that allows users to move through levels of a data hierarchy (e.g., from Year to Month to Day) within a single visual.
ETL	Extract, Transform, and Load; the three-step process of retrieving raw data, cleaning it, and moving it into a reporting environment.
Golden Circle	A strategic analysis method starting with "Why" (mission), then "How" (differentiation), and finally "What" (activities).
Measure	A DAX calculation that returns a single value (like a sum or average) and is calculated on the fly based on the filters applied in a report.
Power Query	The data transformation engine within Power BI used for cleaning and preparing data before it is loaded into the model.
Short Date	A formatting preference (DD/MM/YYYY) that improves readability and historical tracking in reports compared to long-form text dates.
Slicer (Segmentação)	An on-screen visual filter that allows users to interactively filter the data displayed in all other charts on the dashboard.
Source Context	The original location of the data (Excel, SQL, Web, etc.) that Power BI connects to; changes here can be automated via "Refresh."
Web Scrapping	The technique of extracting data directly from websites into Power BI, often used for live data like currency exchange rates.
